

## 2023 - 2024 Associate in Science: Biology Pathway

**Arts and Sciences / University Transfer** 

## Associate in Science: Biology Pathway

All Pathways are designed to transfer to a four-year institution for eventual completion of a BA/BS degree.

The field of biology includes zoology, botany, ecology, evolution, animal behavior, human anatomy and physiology, cell and molecular biology, microbiology, and genetics. College graduates in biology may pursue graduate studies in some aspect of biology or in a field that combines biology with mathematics or chemistry. They may also take other professional paths including medicine, law, engineering, and teaching.

AA and AS degrees require completion of a minimum of 60 semester hours of credit, but pathways may include extra hours to meet university baccalaureate degree plans. Completion of hours beyond 60 may not be required to meet AA or AS graduation requirements but is recommended based on programs offered by intended transfer institutions.
