Career Pilot Technology

The Aviation Management and Career Pilot Technology curriculum prepares individuals for a variety of aviation and aviation-related careers including the commercial airlines, general aviation, the aerospace industry, the military, and state and federal aviation organizations.

Course work includes fundamentals of flight, aerodynamics, aircraft performance, meteorology, navigation, federal regulations, aviation management, and instrument and commercial ground training. Course options include flight and simulator training or business management training.

Graduates will hold a Commercial Pilot certificate with an Instrument Rating or specialize in aviation management. Graduates may find employment as commercial, corporate, and military pilots, fixed-base operators, airport managers, flight instructors, and flight dispatchers. Qualifying graduates may participate in the Piedmont Airlines Cadet Program which provides a pathway to employment with Piedmont Airlines.

The Aviation Management & Career Pilot Technology program is approved by:

*Note, A-B Tech does not offer AER 151 Flight - Private Pilot as part of the Career Pilot pathway. To earn your private pilot certificate (license), you can complete your training at our flight school provider, WNC Aviation, at any other FAA-certified flight school, or with any FAA-certified flight instructor. Once you obtain your private pilot certificate, you will receive credit via licensure for the AER 151 course.

The Career Pilot pathway requires the successful completion of AER 151 Flight - Private Pilot as a preadmission requirement to the program.

Students aspiring to enter the Career Pilot pathway can still enter the Aviation program as Aviation Management students initially. Once the Private Pilot certificate (license) is obtained, the student may switch into the Career Pilot pathway.
