Associate in Science: Pre-Engineering Pathway

All Pathways are design to transfer to a four-year institution for eventual completion of a BA/BS or BFA degree.

The Pre-Engineering pathway is intended to lead to a student earning a bachelor's of science in engineering degree at a four-year university. Completers of this degree will be prepared to enter a bachelor's program at a four-year college or university in majors in a variety of engineering disciplines, including but not limited to: mechanical engineering, electrical engineering, computer engineering, chemical engineering, civil engineering, biomedical engineering, aerospace engineering, and environmental engineering. With this degree, graduates can work as professional engineers whose primary focus is design of systems.

AA and AS degrees require completion of a minimum of 60 semester hours of credit, but pathways may include extra hours to meet university baccalaureate degree plans. Completion of hours beyond 60 may not be required to meet AA or AS graduation requirements but is recommended based on programs offered by intended transfer institutions.
