Associate in Science: Pre-Med Pathway

All Pathways are design to transfer to a four-year institution for eventual completion of a BA/BS or BFA degree.

New physicians coming out of their residencies have a considerable variety of different physician practice options from which to choose. Each practice setting presents a number of different factors, appealing to different personality types. Different levels of autonomy need to be considered, as well as varying levels of business acumen as well as your choice of practice setting.

In addition to earning a bachelor's degree, four more years earning a medical degree is required followed by three to eight years as an intern/resident.

AA and AS degrees require completion of a minimum of 60 semester hours of credit, but pathways may include extra hours to meet university baccalaureate degree plans. Completion of hours beyond 60 may not be required to meet AA or AS graduation requirements but is recommended based on programs offered by intended transfer institutions.
